UDAYAPRAKASH B

Full Stack Developer

+91-9342602128 | udayaprakash2410@gmail.com | Virudhunagar, Tamil Nadu

LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer skilled in React.js, JavaScript, with knowledge of backend development using Node.js, Express.js, and MongoDB. Experienced in building responsive and user-friendly web applications, developing reusable UI components, and implementing application features. Completed a MERN Stack Development course and seeking opportunities to contribute to real-world projects and build scalable web applications

EDUCATION

B.Tech — Computer Science & Engineering **2022 – 2026**

Kalasalingam University, Virudhunagar, Tamil Nadu | CGPA: 7.00

TECHNICAL SKILLS

Programming Languages: JAVA, JavaScript,

Web Development: HTML, CSS, React.js, Tailwind CSS, Node.js, Express.js

Database: SQL, MongoDB

Tools: MS Excel, GitHub, VS Code, Cursor, Claude, Chat GPT

PROFESSIONAL EXPERIENCE & TRAINING

MERN Stack Development — Completed

Rohil Technologies, Virudhunagar

- Completed a MERN Stack Development course covering MongoDB, Express.js, React.js, and Node.js.
- Developed responsive web applications using React.js, JavaScript, and Tailwind CSS.
- Implemented REST API integration, backend functionality, and CRUD operations using Node.js, Express.js, and MongoDB.
- Gained practical experience in full-stack application development, database integration, and Git/GitHub version control.

PROJECTS

Advanced Project Management System

Technologies: React.js, JavaScript, Vite, Tailwind CSS, Node.js, Express.js, MongoDB

- Developed a full-stack project management system with separate Manager, HR, and Employee role-based panels.
- Implemented project and task management features including task assignment, status tracking, deadlines, milestones, and project progress.
- Built responsive dashboards and user interfaces using React.js, JavaScript, and Tailwind CSS.
- Implemented role-based access control and authentication to provide different functionalities based on user roles.
- Integrated Node.js, Express.js, and MongoDB for backend APIs and persistent data management.

Real-Time Crypto Price Tracker

React.js · JavaScript · CoinGecko API

- Developed a responsive real-time cryptocurrency tracking application using React.js and the CoinGecko API.
- Implemented INR pricing, search, watchlist, 30-second auto-refresh, and manual refresh features.
- Added quantity selection with dynamic total-value calculation and a persistent watchlist using localStorage.

Food Ordering System
React.js · JavaScript · HTML · CSS

- Developed a fully responsive food ordering web app with dynamic menu display, cart management, and checkout functionality.
- Architected a centralized assets.js file to manage menu data, implementing dynamic rendering with React Hooks for real-time UI updates.
- Built reusable, modular components for menu items, cart, and checkout, improving maintainability and scalability.

RFID-Based Medicine Dispenser (IoT + Cloud)
ESP8266 · React.js · Cloud

- Engineered an IoT-based automated medicine dispenser using ESP8266 and RFID technology with time-based dispensing logic.
- Integrated cloud data logging for remote monitoring; built a React.js dashboard for real-time system tracking and user interaction.
- Validated system accuracy and reliability through end-to-end testing; co-authored an IEEE-accepted research paper on this project.

RESEARCH & PUBLICATIONS

RFID-Based Individual Medicine Dispenser with Cloud Integration and AI-Driven Health Assistant
Accepted – IEEE 5th International Conference on Communication, Computing and Electronics Systems (ICCCES 2026), Jan 2026

Authors: Dr. D. Balakrishnan, Uday Prakash B, Meka Jahnavi, Mettupalli SunkiReddy Hamsika, S. Sanjay | Paper ID: ICCCES-999

- Contributed to system testing, validation, and performance evaluation of the IoT-based medicine dispensing system.
- Worked on RFID integration, cloud connectivity, and AI-driven health assistant module development.

CERTIFICATIONS & ACHIEVEMENTS

Achievements

- IEEE COMM Hack 2026 – 3rd Prize: Secured 3rd place in a 24-hour hackathon organized by IEEE Communications Society Student Branch, Kalasalingam Academy of Research and Education.

Certifications

- MERN Stack Development **— Rohil Technologies, Virudhunagar** ***(Completed)***
- **Java** Programming Certificate – Udemy
